

Superconductor Science and Technology

This is to certify that the article

Transport properties and microstructure of mono- and seven-core wires of $\text{FeSe}_{1-x}\text{Te}_x$ superconductor produced by the Fe-diffusion powder-in-tube method

by Toshinori Ozaki, Keita Deguchi, Yoshikazu Mizuguchi, Yasuna Kawasaki,
Takayoshi Tanaka, Takahide Yamaguchi, Shunsuke Tsuda, Hiroaki Kumakura
and Yoshihiko Takano

2011 *Supercond. Sci. Technol.* **24** 105002

has been selected by the editors of *Superconductor Science and Technology*
for inclusion in the 'Highlights of 2011' collection.
